SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT
UNDER 37 CFR 1.97 AND 1.98

Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Dear Sir:

Pursuant to 37 CFR 1.97 and 37 CFR 1.98 and in compliance with 37 CFR 1.56, Applicant hereby makes of record the patents, publications, or other information listed on attached Forms PTO/SB/08A and PTO/SB/08B. Applicant respectfully requests that the United States Patent and Trademark Office consider the patents, publications, and other information and make these of record in the subject application.

Each patent, publication, or other information contained in this Supplemental Information Disclosure Statement (IDS) is being submitted prior to the mailing of a first Office Action on the merits in accordance with 37 CFR 1.97(b)(3). Furthermore, each patent, publication or other information contained in the Supplemental IDS was first cited in a communication from a foreign Patent Office in a counterpart foreign application not more than three months prior to the filing of this Supplemental IDS. Accordingly, it is believed that no fee is due.

The above identified patent application was filed after June 30, 2003, such that a copy of the cited U.S. Patent is not required to be submitted per 37 CFR 1.98(a)(2)(ii). However, copies of the remaining documents are enclosed herewith.

The patents, publications, or other information included in a European Search Report from a corresponding European patent application are listed on Forms PTO/SB/08A and PTO/SB/08B as indicated above. The Search Report itself is also submitted herewith indicating the degree of relevancy determined by the European Patent Office.

The Applicant notes that JP 59-162135 is not in the English language. Thus, in accordance with 37 CFR 1.98(a)(3)(i), the following concise explanation of the relevance of this document is determined from its respective English language abstract, which is also cited in the subject Supplemental IDS. This document generally discloses a method which dissolves Cd(++) and a sulphur compound in water to obtain an aqueous solution, mixes the solution with an organic medium in the presence of a surfactant to obtain an emulsion, and heats the emulsion to obtain cadmium sulphide powder.

If necessary, the Commissioner is authorized to charge Howard & Howard Attorneys, P.C. Deposit Account No. 08-2789 for any additional fees or credit any overpayment.

Respectfully submitted,

HOWARD & HOWARD ATTORNEYS, P.C.
